HOW TO BE A GOOD NEIGHBOR

INTRODUCE YOURSELF

Whether you're new in the neighborhood or new residents have just moved in on your block, introduce yourself, and share or ask about the local area.

CONSIDER YOUR NEIGHBORS' LIFESTYLE

Get to know your neighbors! Learn what they do for a living and what their schedules are like. Similarly, give them information that will help them be more considerate of your lifestyle.

BE AWARE OF SHARED WALLS

Position TVs and speakers away from partition walls. If you live above someone, remember that someone downstairs can hear you walking around.

CONTROL YOUR PETS

Keep your pet on a leash in all public areas and always clean up after them.

PRACTICE PARKING ETIQUETTE

When you park your vehicle, be sure to not block anyone's access, or make anyone pull out of a very tight spot. Don't over-rev the engine of your car or motorcycle early in the morning or late at night. Try to park only in front of your home. Avoid slamming your doors or shining your headlights into your neighbor's windows late at night.

QUIET HOURS

Be mindful of the city of Green's noise ordinance from 10pm-6am. This applies both in and out of your home. Excessively loud music in your vehicle can also be disruptive to your neighbors.

COMMUNICATE WITH YOUR NEIGHBOR

Check in with your neighbors regularly and keep them in the loop. If anything you are planning to do may affect them, minimize it and let

them know it advance. Keep the channels of communication open by reminding them that if you're doing anything which disturbs them, they should feel comfortable approaching you about it.

KEEP COMMON AREAS CLEAN

Never leave garbage on your front porch or patio for your neighbor to view or smell. If you share garage space with your neighbor, keep it clean and pleasant to look at. Pick up after your pets!

BE AWARE OF YOUR SURROUNDINGS

Keep an eye out for suspicious activity or anyone you don't know around you or your neighbor's property. When in doubt, call the police so they can curtail any criminal activity.

MAINTENANCE TIPS!

A clean home is a happy home! Whether this is your first apartment or you've been living on your own for years, it doesn't hurt to have some reminders on keeping your home in its best shape!

TIPS:

HOMEMADE CLEANING PRODUCTS

- Two simple homemade products you can make to clean your apartment are:
 - Vinegar Spray: 1to1 solution of water and vinegar
 - Great for general cleaning needs
 - Baking Soda Paste: 1cup of baking soda and slowing mix in water until it forms a paste
 - Great for build up on fixtures, in your tub, grout, shower head, ect.

GARBAGE DISPOSAL

- Grind food waste material with COLD water running for two minutes to prevent buildup.
- Grease and fats should never go down the drain. If grease happens to go down the drain with hot water it can stick to the blades causing a clog. Other items that should never go down the drain are hard items like bones and non-food items and starchy items like rice and pasta.
- General tip: If you can't chew it up, it's too hard to go down your disposal.

GENERAL TIPS

- Keep dishwasher filled with jet dry to prevent spots on dishes.
- Vacuum carpets regularly and in different directions to prevent dirt from embedding into the padding.

KITCHEN SAFETY TIPS!

PREVENTING KITCHEN FIRES

- Keep an eye on your cooking and stay in the kitchen. Unattended cooking is the #1 cause of cooking fires.
- Wear short or close-fitting sleeves to avoid catching them on fire.
- Watch children closely. When old enough, teach children to cook safely.
- Clean cooking surfaces to prevent food and grease build-up.
- Keep curtains, towels and pot holders away from hot surfaces, and store solvents and flammable cleaners away from heat sources. Never keep gasoline in the house.
- Turn pan handles inward to prevent food spills.

PUTTING OUT KITCHEN FIRES

- **Call 911 immediately.**
- Slide a pan lid over flames to smother a grease or oil fire, then turn off the heat and leave the lid in place until the pan cools. Never carry the pan outside.
- Extinguish other food fires with baking soda. Never use water or flour on cooking fires.
- Keep the oven door shut and turn off the heat to smother an oven or broiler fire.
- Keep a fire extinguisher in the kitchen.
- Keep a working smoke detector in your home and test it monthly.
